

ATTENTION
GET YOUR RESULTS ONLINE

ACT students can now access their results online using the ACT's Theological Academic Management System (TAMS).

From the end of first semester 2008 all ACT students can access their results and personal details by logging in to TAMS.

How to login?

Go to the following site:

<http://act.edu.net.au/> and enter your user name and password.

User name: your ACT student ID (in full)

Password: date of birth and ID in the following format: dd/mm + last three digits of ID.

eg. student **12345** born on **July 1** has a password of **01/07345**

Once you have logged in it is highly recommended that you immediately go to Edit Login Details and change your password. The password must be at least five (5) characters in length.

You can then access your contact details and final grades for all your units. There may be some features which do not work for you as not all colleges use all features.

If you have any problems gaining access or using the site please do not hesitate to contact the ACT office for help.
